Special Announcement Re: TNC'S 5-YEAR INDEX

The compiling, editing, publishing, and distributing of THE NORTH CAROLINIAN is a pretty big job in itself. But your Editor, in addition to the magazine, does genealogical research for clients, and endeavors to fill all orders, large or small. Then, late in 1959 (as if he didn't have enough to do!), your Editor announced that a 5-Year Index for TNC, covering the 20 issues published 1955 through 1959, would be shortly forthcoming. The original plan was to index every location, every subject, and every name in full. The result was a staggering total of over 50,000 index slips! The folly of this "monstrosity" became increasingly apparent as the weeks of tedious work turned into months, and the months into years. Noting how well-received, and perfectly adequate, TNC's 1960 Annual Index was, and how very impractical the 5-Year Index was proving to be, your Editor has thought it prudent to change his plans re: the 5-Year Index.

Instead of the 5-Year Index, as originally planned, there will be five Annual Indexes, of surnames only (patterned after the 1960 Annual Index), one Annual Index for each year: 1955, 1956, 1957, 1958, and 1959. These five Annual Indexes will sell for $1.00 each, or all five for $5.00. However, those who have ordered the 5-Year Index at the pre-publication price of $3.00, will be mailed these five Annual Indexes (1955-59) without further charge. Your Editor is currently preparing the 1955 Index, and will mail it, and the balance of the Indexes, to each and every purchaser, just as soon as humanly possible. Kindly bear with him a little longer. Thanks!

GENEALOGICAL RESEARCH

If you do not understand the mechanics and techniques of genealogical research, or have hit a "snag" in your own research, or live too far from the sources to do your own research, or simply do not have time to do research, then it is often expedient to engage the services of a professional genealogist.

Hiring your genealogical research done by a professional genealogist is, however, an expensive matter, since most genealogists charge from $1.50 to $3.00 or more per hour. This amounts to from $12 to $24 per day, and up. In most cases, it takes two or three days to a week or more to do justice to the average genealogical problem; that is, to consult the usual sources, make detailed abstracts, study the findings, and prepare a report. More time is needed for more extensive research, such as reading Court Minutes, for example. Travel is often necessary, which adds to the expense of genealogical research.

If you cannot afford the services of a professional genealogist, then do not waste your time and that of the genealogist by writing to one. Further, it is unfair both to yourself and to the genealogist to send him (or her) $5.00 or $10.00 and expect miracles in return. Genealogical research is not a "cut and dried" matter. Each lineage traced varies as to sources to consult and techniques to use. Results are often disappointing, often due to loss of a county's records by fire, or to the fact that too many persons with the same name lived in the same community.

A large percentage of the population never owned land, so will not be found in the deed and will books of the county where they resided, thus making their tracing all the more difficult. Many of our ancestors had occupations which did not require the ownership of land, such as blacksmith, bricklayer, carpenter, cooper, gold- and silver-smith, gunsmith, harness and saddle maker, merchant, shoemaker, tailor, weaver, and wheelwright, to name a few, not to mention doctor, lawyer, minister, teachers, and so on. Many families, regardless of occupation, or background, were "drifters," living a year or two here, a year or two there, going from county to county, and from State to State. In most if not all families it was inevitable that many in each generation moved on to some new frontier.

Thus, reliable genealogical research is a slow, tedious, complicated, and expensive matter. Sometimes even a professional genealogist with many years' experience is often taxed to the utmost in attempting to piece together a lineage from what few records

our ancestors chanced to have left here and there.

Many of us proudly claim descent from some war hero, some prominent federal, state, or county official, some wealthy plantation and slave owner, or some other noted personage. However, if the truth were known, the majority of the ancestors of most of us were poor beyond belief, earned their living by the sweat of their brow, (the following applied to the rich as well as the poor) had from twelve to twenty children each, lusted after their neighbors' wives and daughters, and drank hard liquor, often to excess.

Being a professional genealogist requires, among other things, at least a brief knowledge of history, law, languages, statistics, and psychology, not to mention an innate ability to do tedious research, and a flair for things genealogical. A competent and reliable genealogist--one who knows where to look and what to look for, one who is skilled at reading the penmanship of the past three centuries--can often save you much time and money in the tracing of your lineage. Choose <u>your</u> genealogist wisely!

1960 CENSUS--AFTERMATH

Editor's Note: The September, 1960, issue of TNC (p. 711) contained a copy of the letter Mrs. Driscoll Rooke wrote to President Eisenhower re: the taking of the 1960 Census, and the Government's "current passionate interest in in-door toilets..." Below are the results of that Census, as contained in an article in Raleigh's NEWS AND OBSERVER, dated 3 March 1961:-

MILLION TAR HEELS MINUS TOILET, BATH OR RUNNING WATER

WASHINGTON (AP)--An estimated 1,042,968 North Carolinians--about one-fourth of the population--live in housing units which have no private toilet or bath or running water.

Another 451,242 live in housing classified as "dilapidated," not providing safe and adequate shelter.

These figures come from a U. S. Bureau of Census report announced Thursday.

The report showed 1,322,957 dwelling units in the state, all but 118,242 of them occupied. Of the total, 911,524 were listed as "sound;" 274,693 as "deteriorating,"--one or more defects that must be corrected if the unit is to continue to provide safe and adequate shelter; and 136,740 as dilapidated.

Non-whites live in 100,875 of the sound units, in 85,263 of the deteriorating units and in 64,311 of the dilapidated units.

The average occupied dwelling in North Carolina contains 4.9 rooms, occupied by 3.3 persons.

Among the sound dwellings, 148,865 contain no private toilet or running water and 167,186 of the deteriorating dwellings are likewise listed. The report showed no breakdown of plumbing facilities under dilapidated housing.

Whites live in 954,266 of the units with 629,030 of the dwellings owned by the occupant.

Non-whites live in 250,449 units with 154,899 owned by the occupant.

Of the total occupied dwelling units, 724,580 are owned by the occupant and 480,135 are rented.

Average monthly rent varied slightly across the state: $36 at Lexington, $37 at Salisbury, $40 at Statesville, $42 at Wilmington, $47 at High Point, $50 at Durham, Fayetteville and Winston-Salem, $51 at Asheville, and $56 at Charlotte, Greensboro and Raleigh.

ONSLOW COUNTY: 1769 TAX LIST

Onslow County, North Carolina, was formed in 1734 from New Hanover County (most N. C. counties were called precincts before 1739--see TNC, pp. 165-77), and its boundaries have remained virtually the same up to the present time. In 1769 Onslow was bounded on the north by Craven Co. (Jones Co. since 1778); on the east by Carteret Co.; on the south by the Atlantic Ocean; and on the west by New Hanover Co. (Pender Co. since 1875), and Duplin Co.

This 1769 Tax List is the earliest one preserved for Onslow County (File No. SS837, in the Archives, Raleigh, N. C.; there are several tax lists of later dates), and includes: (1) number of white men; (2) Negro men; (3) Females (Negro); and (4) Total. Excerpt from letter to TNC's Editor from Mrs. G.B.F.:
"Your magazine has been invaluable to me as I have to do all my research at such a great distance. Please get some one to help you continue and keep the good work going. Since Hathaway, no one has done so much to keep genealogists and historians aware of our heritage as North Carolinians."

AN INK RECIPE OF 1837

"To Make Good Black Ink"

"Take 4 oz. best blue Aleppo nut-galls, ½ oz. green copperas, and ½ oz. clean, white gum arabic--pulverise in a marble mortar, and put the ingredients in a clean white pitcher, with a quart of boiling water. Stir the whole with a stick; set the pitcher in a warm place and cover it lightly with a folded news paper. In an hour, stir again, very hard, and repeat several times during the day. Let it remain in the pitcher several days or a week, until it becomes a good black. Stir it down to the bottom, two or three times a day, with a stick; and use nothing of metal in making the Ink. Put it into pint bottles,

with a large teaspoonful of brandy, or a small teaspoonful of cloves, to prevent moulding, and keep the bottles corked. 'Probatum est.'"
(From: the fly leaf of the Minute Docket in Equity, Davie Co., N. C., April Term, 1837.)

898. Genealogical Recorders, Box 52, Bladensburg, Maryland, announce the following publications for sale: (1) RECORDS OF CRAVEN COUNTY, NORTH CAROLINA, Vol. One, by Elizabeth Moore; 230 pages, map, indexed; abstracts of land records, wills, court suits, newspaper notices, etc.; $8.00 postpaid. (2) 1800 CENSUS OF NEW CASTLE COUNTY, DELAWARE, and (3) 1800 CENSUS OF KENT COUNTY, DELAWARE, these last two volumes by Ellen Stanley Rogers and Louise E. Easter; each volume with map, fully indexed, about 110 pages each, representing the first available census for Delaware; $5.00 each, postpaid. Order from: Genealogical Recorders, Box 52, Bladensburg, Maryland.

EDITOR'S NOTE: Re: RECORDS OF CRAVEN CO., N. C. (above) - Miss Moore is to be commended for her work in Craven Co. records, & for making available to the public these early records of Craven Co., N. C. At the same time, however, in all fairness to persons contemplating the purchase of this volume, it should be pointed out that this Volume One is a veritable hodge-podge of genealogical material, and due to the incomplete and sketchy nature of the data, the Volume cannot be classified as a recommended genealogical reference book for genealogists. There are no volume-and-page references to the many deeds, wills, etc., contained therein, and the indications are that these

items were picked more or less at random from the various (unnamed) sources, leaving the bulk of the material untouched. 365 file drawers of unrecorded papers in the Craven Courthouse are mentioned in the Introduction, but there is no indication as to how much, if any, of this valuable material appears in this Volume. It would have been much better, I am sure, if Miss Moore had stuck to one category, and done justice to it, instead of trying to embrace so much.
